Closing Out Sale!

Building Has Been Sold and We Must Vacate

Wholesale Prices of Furniture Continue to Advance

For months past furniture prices have been advancing and a recent visit to several manufacturing establishments disclosed the fact that furniture is bound to continue to advance for some time to come. There is a great shortage in the available supply of furniture lumber and other materials, labor is continually demanding increases, coupled with the fact that the manufacturers are overwhelmed with orders for the finished product. Furniture is bound to be scarcer and consequently higher priced. Those needing furniture would do well to avail themselves of the opportunities now offered in this closing out sale.

Sale Now in Progress—Continuing Daily Until Stock is Disposed of.

Entire Stock of Fine Furniture to Be Sold at Greatly Reduced Prices

Many pieces are priced on our floors less than the manufacturer today charges for the same piece at the factory.

One Turn of the Faucet Brings Hot Water

You can't think of anything as disagreeable about your home as to be without instant hot water.

Many is the time that you have rushed to your morning wash-up only to find that the water ran lukewarm or cold from the faucet.

An Automatic Gas Water Heater does away with this bother, as one twist of the faucet brings hot water—not a cupful, but as much as you and your family need.

Your Automatic Gas Water Heater is always "on the job," and costs you but a trifle to operate.

Call for Demonstration

We will be glad to charge it and allow you to pay in small monthly installments with your gas bill.

VIRGINIANS ENDORSE CARTER GLASS FOR PARTY NOMINATION

Heated Debate Produced by Dry Issue in Convention.

Other Political News.

By the Associated Press.

ROANOKE, Va., May 20.—Senator Carter Glass of Virginia was endorsed for President and the eight delegates at large to San Francisco were instructed for him by the Virginia democratic state convention before adjournment here last night. The convention endorsed the administration of President Wilson, opposed a soldier bonus and urged ratification of the Versailles treaty without reservations.

Prohibition Question. Efforts to have the convention go on record as favoring amendment of the Volstead prohibition enforcement law and favoring the right of states to permit the manufacture and sale of light wines and beers were defeated. Acrimonious debate preceded the vote on the resolutions.

One resolution was offered by Col. Robert F. Leedy of Page county. While reading his resolution Col. Leedy was forced into silence by a clamor of voices crying: "No, no, no. When the din had subsided, he exclaimed: 'I do not intend to be drowned by a set of hoodlums, cowards and autocrats, who themselves know they are law-breakers and hypocrites.'"

At this juncture a delegate from the ninth district shouted: "Throw him out!"

"I want to announce," cried Col. Leedy, over the uproar that followed, "that neither the gentleman who has just said that nor the two others like him can throw me out."

Following adoption of a platform Senator Glass was re-elected national committeeman from Virginia and two electors at large were named.

Delegates Elected.

The following were elected delegates at large: Senator Claude A. Swanson, Senator Carter Glass, Gov. Westmoreland Davis, Representative E. E. Flood, Representative E. E. Holland, Rorer A. James, State Senator G. Walter Mapp and Lieut. Gov. B. Frank Buchanan.

Alternates named were: Hunter Watson, fourth district; Leo Arthur, sixth district; Charles R. Cain, seventh district; John M. Lawler, eighth district; C. W. Bonderant, ninth district; E. L. Graham, tenth district, and George S. Conrad, fifth district.

Treaty Upheld, Women Lose in South Carolina

COLUMBIA, S. C., May 20.—South Carolina's delegation to the San Francisco convention will be uninstructed, but must vote as a unit, the democratic state convention decided at a session, which continued until early this morning.

Unqualified endorsement was given the Versailles treaty and the league of nations, and the convention also approved the action of the South Carolina branch of the American Legion in opposing a soldier bonus.

A resolution to amend the rules so as to permit women the right to vote in the democratic primaries was rejected by an overwhelming majority.

The four delegates at large elected are Gov. Robert A. Cooper, former Gov. Richard I. Manning, United States Senator E. D. Smith and Representative James E. Brunes.

A resolution unanimously adopted expressed confidence in the policies of Woodrow Wilson and a hope that the President's health may be speedily restored. The resolution was telegraphed to the White House as follows:

"Resolved: That we, the democrats of South Carolina, in convention assembled, hereby tender to Woodrow Wilson, the great leader of the party, our sincere and profound sympathies in his recent illness and assure him that it is our hope and prayer that he be fully restored to health and strength in order that he may again assume the leadership of the moral forces of the world."

Republican Convention May Cost Over \$150,000

CHICAGO, May 20.—The cost of the republican national convention will be at least 50 per cent more than the 1916 convention, according to Fred W. Upham, chairman of the Chicago committee on arrangements and treasurer of the national committee. He estimated the cost of the next convention at \$150,000, with a probability that the cost would reach \$160,000. Mr. Upham said the rule followed in the appointment of doorkeepers and ushers included men of the civil, Spanish and late wars and that assignments were not being confined to service men of the late conflict.

Michigan Democratic Delegates Uninstructed

GRAND RAPIDS, Mich., May 20.—Support of the league of nations covenant and the Versailles treaty without amendment, and "unfaltering support of President Wilson, who has given all but life itself in the service of his country and the world," were pledged in resolutions adopted by the Michigan state democratic convention here yesterday.

Thirty uninstructed delegates to the San Francisco convention were selected, four by the convention and twenty-six by district caucuses. The delegation will observe the unit rule.

Another resolution criticized the delay by Congress on the soldiers' bonus bill, declaring the ex-service men were being used as "political foot balls."

There was a heated debate over a resolution on the prohibition question. As drawn and finally adopted the resolution declared national prohibition "a constructive act of the Wilson administration." An amendment which was lost, 925 to 269, would have pledged the national convention delegates to work for a permanent prohibition plank in the democratic platform.

Connecticut Democrats Give Places to Women

NEW HAVEN, Conn., May 20.—Three women already have been appointed as members of the Connecticut delegation to the democratic national convention at San Francisco. Yesterday Mayor David E. Fitzgerald of this city, a delegate at large, named Mrs. Josephine Whitney as his alternate, Thomas J. Spellacy of Hartford, another delegate at large, has named Mrs. Hiram Percy Maxim of Hartford, and Edward M. Toombs, a second district delegate, has selected Mrs. Fannie Dixon-Welch of New York, a summer resident of Columbia, this state.

Mrs. Dixon-Welch is a Georgian by birth and a former resident of Baltimore. Mrs. Whitney is the widow of Edward Baldwin Whitney, who was Attorney General under President Cleveland and later a supreme court justice in New York.

Moses Has Home Contest.

ROCHESTER, N. H., May 20.—Huntley M. Spaulding of this city, former federal food administrator for New Hampshire, has announced his candidacy for the republican nomination for United States senator at the primaries in September next. It is understood that Senator George H. Moses will be a candidate for another term, in opposition to Mr. Spaulding.

Committeeman From Kentucky.

LOUISVILLE, May 20.—Former United States Senator Camden of Versailles has assumed the duties of democratic national committeeman from Kentucky. He was chosen by the democratic state and executive

committees at a meeting here yesterday afternoon to fill the unexpired term of Gen. W. B. Haldeman of Louisville, who recently resigned because of ill health. Mr. Camden previously had been elected for the term beginning after the democratic national convention next month.

Action by Alabama Republicans.

BIRMINGHAM, Ala., May 20.—Delegates from the state at large were named and a platform for the Alabama branch of the party drawn up at the state republican convention here yesterday.

In the platform members of the party take a stand on freedom of speech, capital and labor, class government, alien enemies and immigration. It also bitterly denounces what is termed the extravagance of the present administration, and places the party on record as unalterably opposed to the league of nations. The delegates were uninstructed.

Two on Retired List.

Chaplain Timothy P. O'Keefe and Capt. John L. Cooley, infantry, have been placed on the retired list of the Army on account of disabilities incident to the service. Chaplain O'Keefe is from the District of Columbia and was appointed a chaplain in the Army in February. He now holds the rank of major. Recently he has been stationed at Fort Leavenworth, Kan.

Beats Gasoline at 15 Cents a Gallon

New Invention Makes Fords Run 34 Miles on Gallon of Gasoline and Start Easy in Coldest Weather. Other Cars Show Proportionate Savings.

A new carburetor which cuts down gasoline consumption of any motor, including the Ford, and reduces gasoline bills from one-third to one-half is the proud achievement of the Friction Carburetor Company, 295 Madison street, Dayton, Ohio. This remarkable invention not only increases the power of all motors from 20 to 50 per cent, but enables every one to run on high gear. It also makes it easy to start a Ford or any other car in the coldest weather without previously warming the motor. With it you can use the very cheapest grade of gasoline or half gasoline and half kerosene and still get more power and more mileage than you now get from the highest test gasoline. Many Ford owners say they now get as high as 45 to 50 miles to a gallon of gasoline. So sure are the manufacturers of the immense saving their new carburetor will make that they offer to send it on 30 days' trial to every car owner. As it can be put on or taken off in a few minutes by any one, all readers of The Star who want to try it should send their name, address and make of car to the manufacturers at once. They also want local agents to whom they offer exceptionally large profits. Write them today.—Advertisement.

Take a "Blue Book"

Are you planning any motor trips this summer? If you are don't forget to include a Blue Book in your equipment. There is little satisfaction in motoring unless you know where you are at all times—the sure way to know is to travel by Blue Book—it will keep you accurately posted at all times.
